The “Welcome to Stamp Collecting” Pavilion

World Stamp Show-NY 2016 is pleased to have a large area of the exhibition floor devoted to youth and adult beginner collectors. The 5,000 square foot area is on the left side of the hall near the US Postal Service booth.

The space has two separate sections—adult and youth. Between them is the enclosed 32 seat TurningPoint Foundation Pavilion Theater where short [video productions](#) for both adults and youth, prepared by a variety of organizations, including the American Philatelic Society, the National Postal Museum of the Smithsonian Institution, the Rocky Mountain Philatelic Library and the [San Jose Stamp Club](#), can be seen. The theater is named after the ten year old Dallas-based organization that focuses on education and arts projects benefiting a wide range of non-profit groups.
